Karen R. Royer
Treasurer/CFO/CHRS

To the Bethel-Tate Local Schools Community,

During the past several months the administration has been preparing for the summer facilities improvements and repairs projects in preparation for the 2018/19 School Year. The facilities and custodial divisions will be very busy during the summer with the normal thorough buildings cleanings and preventative maintenance projects. In addition to the normal activities, the facilities division also utilizes the short summer break to perform major repairs and enhancements to our buildings and grounds.

During the summer of 2018 the District also will be working on the follow improvement and repair projects:

- Bick Primary School - Phase 2 roof repairs and resurfacing
- Bick Primary School - Boilers and pumps replacements
- Intermediate School – Water treatment in boiler room
- Intermediate School – Boys 5th grade restroom fixtures replacement
- Middle School – South parking lot (rear of school) resurfacing
- Middle School – Phase 1 roof repairs and resurfacing
- High School – Soccer and Football practice fields repairs
- High School – Building’s main entrance modifications
- High School – LED lights for classrooms, hallways and offices
- Central Office – Fencing around the parameter of the bus lot
- Fossyl Drive – Resurfacing and installation of speed humps

Our goal is to have all of these tasks completed by the first week of August. This will certainly be a busy summer for the facilities division and they are very excited to have the opportunity to implement these improvements for the students, staff and community of Bethel-Tate Local Schools

Sincerely,

Melissa Kircher
Superintendent

Mission Statement
