

Bethel-Tate Local Schools is proud to partner with Accelerate Education to offer our kindergarten through 5th grade students a personalized, rich, digital curriculum and tools for individualizing learning paths. This program is designed to give each student a unique experience for success, while giving the teacher flexibility and power to enlighten each of their minds. A Bethel-Tate teacher will support your child’s learning goals and meet his/her needs for remediation or acceleration of content when needed. The program is designed for an adult family member, also called a “learning coach,” to assist and guide the child daily as needed. The registration fee for the Accelerate Education program is \$100 for the year or \$50 per semester. Workbooks cost \$17 each. There is a workbook for language arts, math, science and social studies. The total cost of workbooks for the year is \$136, or \$68 per semester. All workbook pages are also available within the program at no additional cost as downloadable PDF documents. More information about Accelerate Education is available on their website at accelerate.education. If you’d like for your child to participate in this online program rather than attend school in person, please register your child using the link found on the Bethel-Tate website.
