Since COVID-19 spreads so rapidly it is essential that students (and their caregivers), staff and volunteers conduct daily health checks prior to going to school, which should include taking their temperature and accessing their symptoms. **Anyone with symptoms described below or a temperature above 100.0 degrees Fahrenheit should stay home.**

Symptoms of COVID-19 range from mild to severe and may appear two to 14 days after exposure. Below are the symptoms to check for daily prior to leaving home for school:

- Students will be ask daily prior to boarding the bus or entering the building if they have performed a home screening that morning. At the infirmary the nurse / aid will conduct a COVID-19 health screening. All screening will be documented and a communication sent home to the parent.

- Parents/guardians will inform the school if their child has been directly exposed to others or have tested positive with the COVID-19 virus.

- Students that have been told to quarantine by a health care physician are not to report to school.
